WALK & "ROLL" FOR ATAXIA

NAF ORANGE COUNTY ataxia

WALK & ROLL FOR ATAXIA

SATURDAY SEPT 15
EAST LAKE VILLAGE

8AM REGISTRATION OPEN
9AM WALK BEGINS
1030-12 FESTIVITIES

I recently had an opportunity to sit down and speak with Cindy DeMint. She is a fellow 'Corridorian' living in Yorba Linda but more importantly, she is the president of the Orange County chapter of the National Ataxia Foundation. Now you're probably asking, "what is Ataxia?" That's a great question, I just recently learned about the disease myself. Well, generally it's a degenerative disease that can manifest in several different ways, but the key word being degenerative. It can manifest at any age. Three of Cindy's four children developed symptoms in their late teens after leading completely normal lives up to that point. The disease was discovered after family friends had observed what they thought was drunken behavior that they thought they should report. That began a several year long process to understand what was happening to her healthy teen aged kids.

On September 15th the OC chapter of NAF is hosting the 10th annual Walk and Roll event around East Lake Village to raise awareness about the disease and funds for promising research. Registration for the event opens at 8am, 9am the walk begins and from 1000-12 there will be plenty of vendors and activities for the family. Be sure to checkout the podcast to hear her story and visit the website or Facebook to see how you can get involved. See you at the walk!

BEER WITH ME...

Last time we talked we discussed the amazing craft beer selection available to us in The Corridor. By now I am assuming you know what The Corridor is (Yorba Linda, Anaheim Hills, and Placentia). One of the premier breweries in the area is called **Bottle Logic**. Today I am writing about one of their finest beers that could be found at various establishments this last weekend.

Side note: I thoroughly understand that if you are a beer snob reading this article is probably beneath you. I would never assume that my beer knowledge is above yours. However, I must add say that most people talking about beer speak confidently about things they don't know. Yours truly included!

Back to the fine beer readily but limitedly available right near us the last week or so. **Fundamental Observation!** No, that is not an introduction into my next sort of ok point, but rather the name of a fantastic bourbon barrel aged stout from Bottle Logic. Believe it or not, this beer is world renowned and was available on draft at **Out of the Park Pizza** and even across the street at **Craftsman Wood Fired Pizza**. The fact that Fundamental Observation was available across the street from one another says two things to me.

Continued, Beer With Me...

First, it speaks again to the availability of great craft beer located in The Corridor. Second, it says that Bottle Logic is interested in distributing some of their rarer beers to a wider audience, and I for one say yes and amen. Fundamental Observation is the kind of beer that introduces a whole world of beer to even non beer drinkers. You wouldn't think that a bourbon barrel aged imperial stout would be approachable for non-beer drinkers, but when the vanilla notes hit our lips it's delicious.

Anyways, that's what I have got for you today. From one beer lover to another... Cheers! **-W**
